UPHILL TRAVEL

Lower & Upper Kidderbrook • 91 • Home Run • Yodeler, Underpass • Lower Standard • Lower Wanderer • Old Log Road, Drifter Link, Lower West Meadow, Upper West Meadow, Mike's Way

An uphill travel pass is required, and must be carried at all times. Visit an outside ticket window at the Main Base Lodge to obtain your pass. Travel only on designated routes indicated by uphill travel icons located beside the trail. Uphill travel is recommended only during operating hours. Please stay on skiers left of trail, wear brightly colored clothing, and stop only where you are visible from above and not obstructing traffic. All pets must be on a leash. Plan to hike down the mountain or take the gondola when open. Visit stratton.com/uphill for complete details.

Skiers and riders please note: We believe that Stratton's trails and glades present the highest level of challenge. Be aware that constantly changing trail surface conditions and increased levels of risk demand that you exercise a high degree of caution and forethought before skiing or riding any trails or glades.

WARNING: Skiing and snowboarding can be hazardous. Trail conditions may vary constantly because of weather changes and skier and snowboarder use. Ice, variations in terrain, moguls, forest growth, rocks and debris, lift towers, natural and man-made objects and other hazards including skiers and snowboarders may not be marked. Be aware that snowmobiles are routinely used on the Mountain. Never ski or snowboard alone. Always ski or snowboard in control.

Our mountain wide safety and awareness program takes the skier or rider responsibility code to the next level.

Look for our Safety Patrol in yellow jackets and Ski Patrol in the red jackets - they're here to help ensure that we all have the best time on the mountain.

Stop by Summit Patrol Headquarters for a visit.
